510 709 8909

Education

California Polytechnic State University, San Luis Obispo

Software Engineering B.S. Junior Standing. GPA: 3.3

Grad Date: January 2019

Make School Summer Academy

Learned how to design, code, & ship an iOS application

Job Experience

Zoomforth - Product Design Intern & Front-end Developer

Working on Zoomforth web app. It's like Squarespace but for professional communications.

Doing UI/UX design and front-end work in React, and web design for landing pages.

Project Jupyter - UI/UX Designer and Software Engineer

Worked on JupyterLab web app, a interactive programming application for data scientists.

Involved with entire product cycle from identifying design issues, coming up with design solutions, getting community feedback, and implementing our idea. Used Javascript front end.

Also worked on improving company branding.

Start-Ups

Hail - Lead Product Designer

Web app that helps facilitate ridesharing for long-distance rides

Implementing front end with React JS, HTML, and CSS

Closet - Founder, Lead Product Designer, and Front-End Engineer

Web app where users can shop for clothing from multiple popular stores

Using React JS, HTML & CSS for front-end.

Mobile Applications

Private Concert - iOS Application

Anonymous singing app. Users can listen, vote, record, and upload songs. Programmed in Swift.

5 Min Shower - iOS Application

App that plays music for 5 min & then ads to get you out of the shower. Programmed in Swift
