

Experience

Ebay • UX Design Systems Intern

June - Sep 2018

- Designed a new pill-based mobile filtering pattern and a new empty state pattern
- Held constant communication with UX and dev teams across eBay to ensure my patterns will be effective across every platform and usecase
- Conducted research, designed pattern, made a sketch library component, and created documentation for both patterns

Ellie Mae • UI Engineer Intern

June - Sep 2017

- Worked on Encompass web app. Application that automates the entire mortgage process. Used to handle over 33% of all US mortgages.
- Spent first 7 weeks implementing a notification inbox that alerts user of issues with loans in real time. Used Angular JS and Javascript (ES6).
- Spent last 3 weeks on UX team. Was responsible with improving integration of the UX team's style guide into the UI engineer's workflow.

Zoomforth • Visual Design Intern

Feb - Dec 2017

- Worked on Zoomforth web app. An application that allows businesses quickly build interactive, content-rich microsites.
- Main job was to improve the overall UI/UX of the web app.
- Helped companies (Adobe, Dellite, Asana, etc.) design their Zoomforth web pages.

Jupyter • UI/UX Design & Web Dev Intern

Mar - Dec 2016

- Designed and developed plugins for JupyterLab, an open-source data science IDE.
- Involved with entire product cycle from identifying design issues, coming up with design solutions, getting community feedback, and implementing our idea.
- Created official company brand guidelines

Projects

FlowChamp • Web App Redesign

Nov - Dec 2017

- PolyPlanner is used by the school to help students create their 4 year course plan
- Working as a designer in team of 4 students
- Product usage jumped from 60 users to 1,000 users since I joined the team.

Private Concert • iOS Application

June - Sep 2015

- Anonymous singing application. Users listen, vote, record, and upload songs straight from the app. I designed, programmed, and shipped the app.

Education

Cal Poly, San Luis Obispo • Software Engineering

Sep 2015 - Now

- Software Engineering B.S. concentrating in Human Computer Interaction
- Expected Grad: June 2019
