Experience

Ebay - UX Design Systems Intern
June – Sep 2018

• Designed a new pill-based mobile filtering pattern and a new empty state pattern

• Held constant communication with UX and dev teams across eBay to make sure my patterns will be effective across every platform and usecase

• Conducted research, designed pattern, made sketch library component, and created documentation for each pattern

Ellie Mae, Inc. - UI Engineer Intern
June – Sep 2017

• Worked on Encompass web app. Application that automates the entire mortage process. Used to handle over 33% of all US mortgages.

• Spent first 7 weeks implementing a notification inbox that alerts user of issues with loans in real time. Used Angular JS and Javascript (ES6).

• Spent last 3 weeks on UX team. Was responsible with improving integration of the UX team's style guide into the UI engineer's workflow.

Zoomforth - Visual Design Intern
Feb – Dec 2017

• Worked on Zoomforth web app. An application that allows corporations to quickly build interactive, content-rich microsites.

• Main job was to improve the overall UI/UX of the web app.

• Helped companies (Adobe, Delliote, Asana, etc.) design their Zoomforth web pages.

Jupyter - UI/UX Design & Web Dev Intern
Mar – Dec 2016

• Designed and wrote plugins for JupyterLab, an open-source data science IDE.

• Involved with entire product cycle from identifying design issues, coming up with design solutions, getting community feedback, and implementing our idea.

• Used Javascript (PhosporJS) front end.

• Created official company brand guidelines

Projects

FlowChamp - Javascript Web App
Nov – Jan 2018

• PolyPlanner is used by the school to help students create their 4 year course plan

• Working as a designer in team of 4 students

• Product usage jumped from 60 users to 1,000 users after redesign

Private Concert - iOS Application
June – Sep 2015

• Anonymous singing app. Users listen, vote, record, and upload songs straight from the app

• Designed, programmed, and shipped app by myself

Education

California Polytechnic State University, San Luis Obispo
Sep 2015 – Now

• Software Engineering B.S. concentrating in Human Computer Interaction

• Expected Grad: June 2019
