Experience

UX Designer, Innominds   Apr '20 – Current
Working on design for an enterprise, low-code web app builder in a consulting firm. Collaborating with a team of product managers, designers, & developers.

Product Designer, Squid Notes   May – Nov '19
Squid is #1 android app for handwritten notes with over 3 million downloads. Led the effort to redesign entire note editor + multiple new features.

UX Design Intern, Ebay   June – Sep '18
Worked on Ebay's new design system for both mobile and web. I conducted research, made sketch components, & created documentation for each pattern.

Visual Designer, Zoomforth   Feb – Dec '17
Zoomforth a web app that helps large corporation build microsites easily. I helped customers design their web pages and provided CSS help

UI Engineering Intern, Ellie Mae   June – Sep '17
Built a notification inbox in React JS. Also built a tool to help the UX team share design patterns with engineering.

UI/UX Design & Developer Intern, Jupyter   Mar – Dec '16
Worked on JupyterLab, an open-source data science IDE for the web. I was involved with the entire product cycle from identifying issues, creating design solutions, & implementing our idea. I also created official brand guidelines.

Projects

Amazon Handmade, Android App   Sep '18 – June '19
Worked with Amazon to build an app that helps people in rural Mexico sell their products online without smartphones or internet.

Private Concert, iOS App   Nov – Jan '18
Designed & built an anonymous singing app. Users listen, vote, and record songs on the app all without the worry of judgement.

Education

California Polytechnic State University, San Luis Obispo   Sep '15 – Mar '20
