Work Experience

Product Designer III, Peloton

Aug '23 - Now

Redesigned and launched a new Mac app every Peloton instructor uses to create and plan their classes. Instructors can listen to music, build playlists, and use those songs to create class plans. Improved content quality and allowed the company to launch new class types. Leveraged the same design system and framework to spin up a new app to control the filming studio.

Product Designer I & II, Peloton

Oct '20 - Aug '23

The first designer on a web app that manages all music & class data. Created & maintained a design system that streamlined our design and front-end development process while simultaneously working on dozens of new features that made the lives of our music and production teams easier.

Product Designer, Squid Notes

June '19 - Dec '19

Created a "North Star" redesign for the core notes editor to make note-taking a more natural & fluid process. Squid is the #1 Android app for handwritten notes.

UX Design Intern, Ebay

June - Sep '18

Worked on Ebay's new design system. I conducted research, built components, & created documentation for 2 different patterns related to search and filtering.

Visual Designer, Zoomforth

Feb - Dec '17

Zoomforth is a web app that helps large corporation build micro websites easily. I helped customers design their web pages and provided CSS help and advice.

UI Engineering Intern, Ellie Mae

June - Sep '17

Used Angular JS to build a feature that alerts customers of issues with their mortgage and a tool to help the UX team share design patterns w/ engineering.

UI/UX Design & Developer Intern, Jupyter

Mar - Dec '16

Worked on JupyterLab, an open-source data science IDE for the web. I contributed to the entire product cycle from identifying issues, creating design solutions, & implementing our idea. I also created official brand guidelines.

Education

California Polytechnic State, San Luis Obispo

Sep '15 - Dec '19

Software Engineering B.S. concentrating in Human Computer Interaction

👍 What I'm Great At

- Figma
- Design Systems / Pattern Libraries
- Interaction Design
- User Flows
- Visual Design
- Prototyping
- Vibe Coding

Other Skills

- Usability Testing
- Sketch
- Javascript
- Typography
- Brand Design
- Product Strategy
- Motion Design
- CSS
